

PICK YOUR FAVORITE ROLLER COASTER RIDE AND HOLD ON TIGHT!

The **VR 2002 Roller Coaster Simulator**, a full motion, cockpit sized theme park, has succeeded in phenomenal fashion worldwide. Riders can program their own journey, selecting track pieces from millions (literally) of “mild to wild” track combinations. Passengers then strap into the coaster cockpit and the full-motion 360 degree “forward-of-axis” action sends them soaring, spiraling, plunging and twisting in two different pulse-pounding directions. Every loop, leap and lunge is seen on the huge HD projection screen. Premium quality surround sound and the feel of real wind in your face creates a true adrenaline rush.

Customers everywhere are drawn to the **VR 2002 Roller Coaster’s** “Compact Big Attraction” appeal and —like all MaxFlight simulators— operators can count on **large throughput**, a **small footprint**, **solid revenues** and an **excellent return on investment**.

NEW TRACKS BEING RELEASED MONTHLY

◆ REPEAT BUSINESS

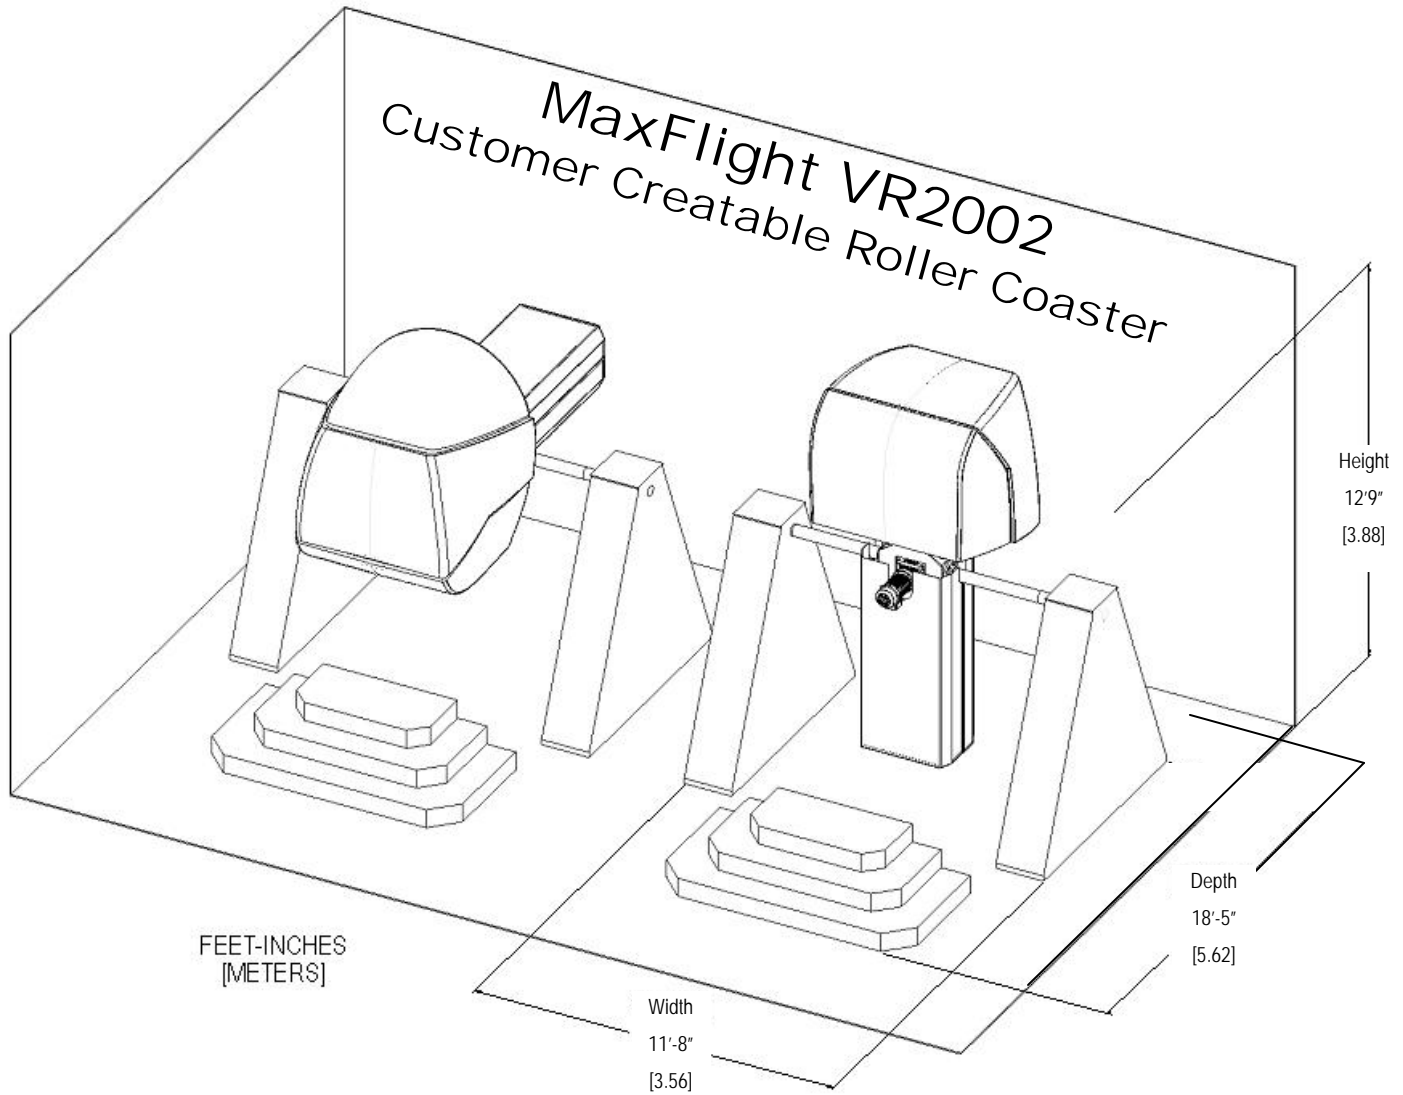

◆ HIGH TURNOVER

◆ FUN FOR ALL AGES
